

## 826 T Kraftform Turbo bit-holding screwdriver handle with Rapidaptor quick-release chuck

**Application:** Suitable for bits with 1/4" - external hexagon drive as per DIN ISO 1173-C 6,3 and E 6,3 and Wera connection series 1 and 4

**Design:** Connectable mechanic turbo function for quadrupling the screwdriving speed; robust, maintenance-free gear made of steel; 1/4" - hexagon socket mounting with Rapidaptor technology with rapid-in, rapid-out, rapid-spin, chuck-all and single-hand functions, magnetic

**Handle:** Kraftform with anti-roll protection, multi-component

## Faster screwdriving

The construction of the Kraftform Turbo allows the speed of manual screwdriving to be quadrupled, especially for smooth couplings - without electricity!

## With and without Turbo

The turbo function can be activated as needed by pressing a button. Turning it off is recommended for tightening and loosening with high torque, e.g. for screw connections in wood as well as for fine adjustments.

## 827 T i Kraftform Turbo blade holding handle

**Application:** For Wera VDE interchangeable blades only

**Design:** Connectable mechanic turbo function for quadrupling the screwdriving speed; robust, maintenance-free gear made of steel

**Handle:** Kraftform with anti-roll protection, multi-component

## Faster screwdriving

The construction of the Kraftform Turbo allows the speed of manual screwdriving to be quadrupled, especially for smooth couplings – without electricity!

## With and without Turbo

The turbo function can be switched on or off at the push of a button. Turning it off is recommended for tightening and loosening with high torque as well as for fine adjustments.

## Handle/interchangeable blade system

With its 9 mm mounting, the Kraftform Turbo is suitable for all Wera Kraftform Kompakt VDE interchangeable blades. The "holder/interchangeable blade system" stands for flexible working with many screw profiles.

## Individually tested

The individual testing at 10,000 volts, in accordance with IEC 60900, ensures safe working with loads up to 1,000 volts.

## Telescopic blade, integrated bit magazine, Rapidaptor technology

The sets in the series Kraftform Kompakt 20 are really something. A 2 position telescopic blade can be retracted into the handle for confined space operation or extended for more reach. It can also be removed and used as a 100mm bit holder in the power tool. Six bits are conveniently integrated

into a push-button opening bit magazine. The Rapidaptor technology ensures rapid one hand bit changes, press-in auto bit lock and a secure positioning when used in power tools thanks to the free-turning sleeve.

### The telescopic blade I

When the unique telescopic blade is lowered into the handle, fast, easy screw-driving action is possible, even in the tightest spots!

## Kraftform Kompakt 20 Tool Finder 1 with pouch

**Application:** Suitable for 1/4" DIN ISO 1173-C 6.3 and E 6.3 hexagon socket insert bits and Wera Series 1 and 4

**Design:** Attachment, telescopic, Rapidaptor rapid-in, rapid-out, rapid-spin, chuck-all and single-hand technology; "Take it easy" tool finder; Output colour coding and large stamp to enable the desired bit to be easily located.

**Handle:** Kraftform with non-roll feature, multi-component, integrated magazine

## High torque transfer

By using the blade as an extension of your lower arm you can transfer particularly high torque.

## Ergonomic 2-component T-handle

The ergonomically shaped 2-component T-handle with finger recesses and pleasant surface facilitates very high power transmission and fatigue-free working.

## Compact shape

With its compact handle shape and the short blade, the Kraftform Stubbies are particularly suitable for working in confined screwdriving situations.

## Tangible ergonomics

The 2-component Kraftform handle allows high power transmission due to the non-slip, softer grip areas and high working speeds due to the hard grip areas, which allow a quick hand switch.

## Kraftform Kompakt

Why is the right tool so often not at hand? The reason: too many tools and overly-heavy tool bags can make it bothersome to carry them onsite. So for us it was a clear challenge: to design a tool that is suitable for a whole host of applications and can be easily taken along to jobs at other sites. Our

solution: Kraftform Kompakt tools. A handle into which blades with a range of different profiles can be inserted.

## Kraftform Kompakt Pistol RA 4

13-piece set

1 hand-held bit holder 814 RA Kraftform, integrated Magazine, with ratchet function, fine-tooth design for minimal return angle, switchover ring (right, locked, left), maximum torque of up to 50 Newton metres, 1/4" hexagon chuck with Rapidaptor technology i.e. rapid-in, rapid-out, rapid-spin, chuck-all and single-hand function for rapid bit change, magnetic, 6 bits of 25 mm in length suitable for holders as per DIN ISO 1173-D 6.3 and 6 bits of 89 mm in length suitable for holders as per DIN ISO 1173-F 6.3

### Individually tested

Each Kraftform Kompakt VDE set has been tested individually at 10,000 volts, in accordance with IEC 60900. This ten-times-higher testing load guarantees safe working at their maximum permitted load of 1,000 volts.

### Handle/interchangeable blade system

The handle/interchangeable blade system allows rapid exchange of the blades required for a wide range of applications.

17-piece set

2 Kraftform handles 817 VDE for Wera VDE interchangeable blades only

14 VDE interchangeable blades (each 154 mm long) with reduced blade diameter (articles KK 60 i 0,4x2,5 and KK 67 i TX 10 conventional diameter) with integrated protective insulation, allows sunken screws and spring elements to be accessed and actuated

1 pair of Knipex electrical installation pliers VDE 13 96 200; for cutting, stripping, gripping, bending, deburring and crimping. With pawl for gentle gripping. Chrome-plated for better rust protection, with insulated multi-component grip sheaths.
