

Zyklop VDE

We want users of our tools to work safely and comfortably. The Zyklop VDE ratchet and accessories are the right tools for safe working on electrical systems, with features that will impress, even in tight conditions.

Zyklop Speed

The "original" Zyklop is particularly impressive because it combines 5 types of ratchet into a single tool, and delivers the fastest working speeds. Both features result in making work simpler, and saving time. So with this in mind, the original Zyklop will be known as the Zyklop Speed from now on.

Zyklop Hybrid

We wanted to combine the most-requested advantages of a ratchet in a single tool. Our idea was to develop a lightweight ratchet with an ergonomic Kraftform handle, a slim head design, a long lever and an extension option. Introducing... Zyklop Hybrid.

Zyklop Metal

The Zyklop Metal ratchets are made completely of metal (chrome-molybdenum), so they will be referred to as Zyklop Metal. The new branch of the family will include the Zyklop Metal with a "push-through" square drive and the Zyklop Metal with switch lever.

Zyklop Mini

Filigree design combined with incredible robustness – this is an industrial-strength tool. The Wera Bit Ratchet is used whenever there is insufficient space to work with a power tool or conventional hand tools.

Koloss

The ratchet that can also safely and officially be used as a hammer! The Koloss is a reversible, heavy-duty ratchet that can be used with a load of at least 600 Newton meters.

8007 B VDE Zyklop ratchet, insulated, with switch lever, with 3/8" drive

Application: 3/8" square sockets as well as for 3/8" adaptors with square drive, with ball locking device

Design: Individually tested as per IEC 60900 at 10,000V for safe working at the approved voltage of 1,000V; slim design to enable work in very confined spaces; fine-tooth mechanism with 80 teeth for a return angle of only 4.5°; switch lever for convenient change of direction; secure socket locking function by push button

	mm
05004966001	3/8" 222,0

8100 SB VDE 1 Zyklop Ratchet set, insulated, switch lever, 3/8" drive, metric

17 pieces; in a surface-preserving, compact and extremely robust textile box; low volume and weight for simplified mobility. Fleece backing and hook and loop fastener system for easy attachment, e. g. on wall, shelf, workshop trolley and the Wera 2go tool transport system. Smooth rotating mechanism for safe storage and easy removal of the Zyklop VDE sockets.

1 Zyklop Ratchet 8007 B VDE, with switch lever, with 3/8" drive, 14 Zyklop VDE sockets, 2 Zyklop VDE extensions, one long, one short, all tools insulated, individually tested as per IEC 60900 at 10,000 V for safe working at the approved voltage of 1,000 V. The Zyklop VDE sockets and extensions offer increased safety through 2-component isolation with yellow insulation core, which becomes visible in case of damage to the outer red VDE insulation layer.

Switch lever

Switch lever for convenient change of direction.

Ball lock

The ball lock ensures sockets and accessories are securely fitted, providing increased safety during operation. A short press on the release button allows the tool to be changed quickly.

Increased security

The Zyklop sockets and extensions for electricians offer increased safety thanks to their 2-component isolation with yellow insulation core under red insulation outer layer.

8000 A Zyklop Speed Ratchet with 1/4" drive

Application: 1/4" square sockets and 1/4" adaptors with square drive, equipped with ball lock

Design: Flywheel design and easy-to-grip free-turning sleeve for faster work, swivel ratchet head, defined lock positions at 0° and 90° to the left and right as well as at 15° before 90° inwards, at 0° it can be used like a conventional screwdriver, pushbutton release, left/right switchover, fine-tooth design, small return angle of 5°

Handle: Multi-component Kraftform handle ensures minimum fatigue

Zyklop "6 in 1"

1. Fine-tooth ratchet 2. Flex-head ratchet 3. Angle ratchet 4. Quick-release ratchet 5. Power ratchet 6. Screwdriver

Pivots freely

The ratchet head pivots freely and can be locked into any defined position by using the slide switch that is positioned on either side. It is even possible to work in very confined and difficult-to-access areas with enhanced hand clearance. The predefined locking at 0°, 15° and 90°, both to the right and left, ensure safe working without any slipping of the ratchet head.

Low return angle

The reversible ratchet with 72 fine-pitched teeth has a low return angle of only 5°. This short stroke allows fast and precise work in all types of installation.

8100 SA All-in Zyklop Speed Ratchet Set, 1/4" drive, with holding function, metric

42-piece set; in a surface-preserving, compact and extremely robust textile box; low volume and weight for simplified mobility. Non-woven reverse side and hook and loop strips for simple attachment e.g. to a wall, shelf, tool trolley and to the Wera 2go tool transport system. Fast and easy Twist to Unlock mechanism for secure storage and simple removal of the sockets.

1 Zyklop Speed Ratchet with 1/4" drive, 13 Zyklop sockets with 1/4" drive with fastener holding function, 9 Zyklop bit sockets for TORX® screws, with 1/4" drive, with holding function (sizes 2.0 and 2.5 without holding function) and Hex-Plus high torque geometry, 8 bit sockets for hexagon socket screws with 1/4" drive with holding function (sizes 2.0 and 2.5 without holding function) and Hex-Plus high torque geometry, 3 Zyklop bit sockets with 1/4" drive for Phillips screws, 3 Zyklop bit sockets with 1/4" drive for Pozidriv screws, 2 Zyklop bit sockets with 1/4" drive for slotted screws, "Take it easy" tool finder: Colour coding to enable the desired bit socket to be easily selected, 1 tool for the simple removal of nuts from sockets with holding function, 1 Zyklop extension (long) with free-turning sleeve, 1 wobble extension.

Bit sockets with holding function for TORX® screws

The HF tools developed by Wera are ideal because they feature an optimised geometry of the original TORX® profile. The wedging forces resulting from the surface pressure between the drive tip and the screw profile mean that TORX® screws made according to Acument Intellectual

Properties specifications are securely held on the tool!

Fast movers

The Zyklop Speed ratchets are really fast movers. The gyrating mass design means that screwdriving is accelerated. The rotation-symmetric structure of the Kraftform handle and the free-turning sleeve reinforce this rapid twisting process, particularly when the ratchet does not engage due to too little resistance in the thread.

Simple direction change

All Zyklop Speed ratchets feature a thumbwheel that can be used to quickly and easily switch between clockwise and anticlockwise rotation, at any position. No complicated handling, no loss of time!

8006 C Zyklop Hybrid Ratchet with switch lever and 1/2" drive

Application: 1/2" square sockets as well as for 1/2" adaptors with square drive, with ball locking device

Design: Fine-tooth mechanism with 72 teeth for a return angle of only 5°; switch lever for convenient change of direction; secure socket locking function

Handle: Multi-component Kraftform handle for optimum pressure and tensile loads, handle end designed for connection of Zyklop Hybrid extension 8797 C

Zyklop Metal Push

Due to the ever-more confined working environment, space is becoming more and more an issue for the application of ratchets. Our product developers therefore intensively occupied themselves with the issue of confined working spaces, and Wera has now solved this problem. The extremely slim and robust Zyklop Metal ratchet with a long lever was what emerged. When the socket must not get lost and a coincidental change of direction has to be avoided at all cost, the Zyklop Metal Push is the correct choice.

8003 A Zyklop Metal Ratchet with push-through square and 1/4" drive

Application: 1/4" square sockets as well as for 1/4" adaptors with square drive, with ball locking device

Design: Forged, full metal ratchet (chrome-molybdenum) that is extremely robust with a long service life; slim design to enable work in very confined spaces; the dual-ratchet-teeth design means that a 76 fine-toothing division can be achieved from the 38 robust teeth with a return angle of only 4.7°; simple direction change with the undetachable push-through square and very secure socket lock mechanism

¹⁾With friction ball; for manual nut spinner sockets

Zyklus Mini 2

The Zyklus Mini 2 is suitable for the direct attachment of the special Wera Zyklus sockets 8790 FA. These sockets feature a very low height, ideal for confined working spaces.

Zyklus Mini 3 Ratchet

The Zyklus Mini 3 ratchet is the ideal tool for screwdriving in confined spaces. The fine toothing (60 teeth) allows a very low return angle of only 6°; the knurled wheel allows fast screwdriving even when there is no room for pivoting movement.

Rapid screwdriving

Thumbwheel enables rapid screwdriving, even when there isn't sufficient room for ratcheting use.

"Take it easy" tool finder system

The "Take it easy" Bit-Checks have bits with a sleeve which – from its colour (e.g. red = Phillips) and size designation – make it simple to access the right bit quickly.

Bit-Check 10 Zyklop Mini BiTorsion 1

9 bits, BiTorsion for long service life, extra-tough, for universal use. Take it easy tool finder: Output colour coding (red = Phillips; black = Pozidriv; green = TORX®; blue = hexagon) and large stamp to enable the desired bit to be easily located. 1 Wera Bit Ratchet Zyklop Mini 1, drop-forged full steel design, suitable for 1/4" hex bits as per DIN ISO 1173-C 6.3 and E 6.3 and Wera series 1 and 4. Can also be used with 1/4" sockets by using the Wera socket adaptor 870/1.

¹⁾With friction ball; for manual nut spinner sockets

Is such a small tool sufficiently resilient?

The Zyklop Mini 1 can withstand at least 65 Nm. That is far more power than can normally be transferred to such a small tool.

781/5 Set 1

Connection parts, 5-piece set

For manual and machine-operated tools (non-impact), with ball stop groove, knurling at the rear end for manageability during manual use; chrome-vanadium, brushed chrome-plated finish

Secure hold and easy removal

The all new smooth turning mechanism guarantees both secure and rattle-free storage, yet allows easy removal of the tool.

Sockets with retaining function for hexagon headed bolts, screws and nuts

The clamping of the screw is achieved by a twin spring loaded ball retention system. The tubing is effectively protected against mechanical wear and tear by a steel ring. The holding function is especially helpful in confined, hard-to-reach spaces, where there is no room for a second hand to secure the screw.

Belt A 1 Zyklop socket set with holding function, 1/4" drive

10-piece set; robust textile socket belt, including snap hook to enable secure fastening to a belt loop or pocket. Non-woven reverse side and hook and loop strips for simple attachment e.g. to a wall, shelf, tool trolley and to the Wera 2go tool transport system. Fast and easy Twist to Unlock mechanism for secure storage and simple removal of the sockets.

9 Zyklop sockets with 1/4" drive with fastener holding function. "Take it easy" tool finder: Colour coding to enable the desired socket to be easily selected. 1 tool for the simple removal of nuts from sockets with holding function.

Practical nonwoven strips

The textile belt can be attached by means of the nonwoven reverse side and the hook and loop strips e.g. to a wall, shelf, tool trolley and to the Wera 2go tool transport system.

Increased security

The Zyklop sockets and extensions for electricians offer increased safety thanks to their 2-component isolation with yellow insulation core under red insulation outer layer.

Kraftform Kompakt W 1 Maintenance

The perfect set for diverse maintenance jobs both indoors as well as outdoors – applications: electronics, mechanics, building technology, photovoltaic etc. etc. etc.

Handle/interchangeable blade system – Kraftform Kompakt VDE

The handle/interchangeable blade system allows rapid exchange of the blades required for a wide range of applications.

Zyklop “6 in 1”

1. Fine-tooth ratchet 2. Flex-head ratchet 3. Angle ratchet 4. Quick-release ratchet 5. Power ratchet 6. Screwdriver

Kraftform Kompakt W 1 Maintenance

35-piece set; in surface-protecting, compact textile box, highly robust; low volume and weight for simplified mobility.

Compact tool set with the most important screwdriving tools for maintenance jobs both indoors as well as outdoors. VDE hand holder including 12 VDE blades; 1 Joker double open-ended wrench with holding function, limit stop, small return angle and extremely high-grip toothing; incl. the incredibly fast 1/4" Zyklop Speed ratchet with accessories; 8 manual and power tool sockets in the dimensions 5.5-13, 1 universal bit holder; 7 25mm bits; 1 screw gripper to firmly hold screws; 1 single-pole phase tester 247; textile box that is very robust and durable; can be positioned upright in the workshop shelf for tidy storage; additional surface protection thanks to the textile outer material; low weight and volume for simplified mobility.

¹⁾With friction ball; for manual nut spinner sockets

Tool set for the professional window builder

Compact Wera screwdriving tool set with the 35 most important tools for window construction. Socket wrench and bit assortment in premium Wera quality, attuned to universal window construction applications. With 2 bit hand holders and 1 bit ratchet (which can also be used for socket

wrench inserts, if used with an adaptor).

Flexible shaft

Around the corner screwdriving with the 393 S screwdriver. The flexible shaft allows to reach fixing screws in unfavourable positions. The ideal tool for screwdriving situations that are difficult to reach.
