-	K240	1x 50,0x240,0

“Take it easy” Tool Finder

Screwdrivers with “Take it easy” tool finder: colour coding according to profile and size stamp.

Prevents hand injuries

The outstanding design of the Kraffform handle that fits perfectly into the hand prevents hand injuries such as blisters and calluses.

Lasertip

A precisely-focused laser creates a sharp-edged surface structure. This laser treatment results in an edge hardness of up to 1000 HV 0.3. Wera Lasertip “bites” itself into the screw head and prevents any slips out of the recess. It is available for screwdrivers for slotted, Phillips and Pozidriv screws.

Non-roll feature

The hexagonal non-roll feature prevents any rolling away at the workplace.

Long life

The special surface treatment of the blades sees to a high level of corrosion protection and optimum fitting accuracy of the screw.

Stubby Set 1 Screwdriver set

With Take it easy tool finder: colour coding according to profile and size stamp.

Application: Slotted and Phillips screws

Design: 5-piece set in display carton

05008870001	
	350 PH Stubby 1x PH 1x25; 1x PH 2x25
	335 Stubby 1x 0,6x3,5x24,5; 1x 0,8x4,0x24,5; 1x 1,0x5,5x24,5

“Take it easy” Tool Finder

Screwdrivers with “Take it easy” tool finder: colour coding according to profile and size stamp.

Compact shape

With its compact handle shape and the short blade, the Kraft-form Stubbies are particularly suitable for working in confined screwdriving situations.

454/7 HF Set 1 screwdriver set T-handle screwdrivers Hex-Plus with holding function

Application: Hexagon socket screws, with holding function on the long arm from size 3

Design: With Take it easy tool finder; colour coding according to profile (blue = hexagon socket) and size stamp. 7-piece set and 2 racks in display carton

05023450001		
○	454	1x 2,5x100
○	454 HF	1x 3x100; 1x 4x100; 1x 5x150; 1x 6x150; 1x 8x200; 1x 10x200
	Rack	2x 190,0x50,0

Ergonomic 2-component T-handle

The ergonomically shaped 2-component T-handle with finger recesses and pleasant surface facilitates very high power transmission and fatigue-free working.

TORX® HF profile

In tight assembly or disassembly situations, for example in engine compartments, it is not possible to securely hold the screw with the hand on the screwdriver, and the screw subsequently often gets lost. Lengthy searches or the loss of the screw (with the associated danger that could bring about)

are the consequence. The HF tools developed by Wera are ideal because they feature an optimised geometry of the original TORX® profile. The wedging forces resulting from the surface pressure between the drive tip and the screw profile mean that the screw is securely held on the tool!

“Take it easy” Tool Finder

Screwdrivers with “Take it easy” tool finder: colour coding according to profile and size stamp.

160 i/7 Rack Screwdriver set Kraftform Plus Series 100, voltage tester and rack

Kraftform: The safety screwdriver with Lasertip blade, single-pole phase tester and rack. Take it easy tool finder: colour coding according to profile and size stamp.

Application: Slotted and Phillips screws

Design: 7-piece set and rack in display carton

Design: 6-piece set

05051575001	
+	1062 i PH VDE 1x PH 1x80; 1x PH 2x100
-	1060 i VDE 1x 0.4x2.5x80; 1x 0.6x3.5x100; 1x 0.8x4.0x100; 1x 1.0x5.5x125

Individually tested

Our screwdrivers are tested for dielectric strength under a 10,000 volt load to make sure that their most important property, their insulation, has been exhaustively tested. Each individual Wera VDE screwdriver is subjected to this test to guarantee safe working up to 1,000 volts.

Rapid hand repositioning

The hard materials used for the handle ensure rapid hand repositioning without any danger of the skin "sticking" to the handle. The surrounding hard zones with large diameters glide like wheels across the hand.

3334/6 Screwdriver set, stainless and rack

Application: Slotted and Phillips screws

Content: 6-piece set with Take it easy tool finder: colour coding according to profile and size stamp and rack in display carton

¹⁾without Lasertip

Screw stainless steel together with stainless steel!

Solution to the rust problem: screw stainless steel together with stainless steel! Wera stainless steel tools are manufactured out of stainless steel so unsightly rust can be avoided.

Vacuum ice-hardened

The stainless steel tools from Wera are vacuum ice-hardened and have the hardness and strength needed for screw connections. There are no limitations to the industrial applications they are suitable for.

932/6 Screwdriver set Kraftform Wera: Chiseldriver and rack

Application: Slotted and Phillips screws

05137811001		
+	917 SPH	1x PH 1x80; 1x PH 2x100
+	977 TORX®	1x TX 20x90; 1x TX 25x100
-	932 A	1x 0,8x4,5x90; 1x 1,0x5,5x100; 1x 1,2x7,0x125
	K240	1x 50,0x240,0

Integrated impact cap

An integrated impact cap lengthens the service life and reduces the danger of splintering. Nevertheless, always wear protective goggles.

Pound-thru blade

A hexagon blade made out of high-quality bit material extends right through the handle – thereby ensuring full transfer of force, even when struck with a hammer. The ductile tempered material prevents the blade from splintering or breaking.

Integrated hex bolster

Greater torque can be transferred by fitting an open-jaw or ring spanner over the integrated hex bolster.

Wera Black Point tip

The Wera Black Point tip and a refined hardening process ensure long service life of the tip, improved corrosion protection and an exact fit.

Kraftform Micro 12 Universal 1 screwdriver set for electronic applications

Take it easy tool finder: colour coding according to profile and size stamp.

Application: Slotted, Phillips, TORX® and hexagon socket screws
